

How to load Patterns in the latest Photoshop version:

1. Select "**Window > Patterns**" from Photoshop's menu to display the Patterns panel.
2. Click the menu button of the Patterns Panel and select "**Import Patterns**".
3. Load the patterns file from your hard disk.

How to load Patterns in Photoshop CS6, CS5, CS4 and in Photoshop Elements 2015 or newer:

1. Select "**Edit > (Presets) > Preset Manager**" from the menu.
2. Choose "**Patterns**" from the dropdown list.
3. Click on "**Add**" to import the patterns file from your hard disk.

Use the Patterns Panel or the Preset Manager to unload the patterns from Photoshop. this won't delete the action file from your hard disk. It will merely unload the Action set (and its actions) from Photoshop. You can load back the actions at any time.
